

Dust-Proof Magnet Catches

DMGCC

No.	Part Name	Material
1	Main Body	Polyacetal
2	Catch Plate	SUS430
3	Magnet	Neodymium Magnet

Part Name		Retention Force (kgf)	Mass (g)	Color
Type				
DMGCC	1	1.0	21	①Black
	2	1.4	22	②Gray
	3	2.0	24	③Milky White
	4	2.0	25	④White

Features

- The magnet encapsulated structure is effective for preventing rust and dust intrusions.
- These magnetic catches are the best suited for use in clean rooms.

Basic Specifications

- **Type** : Magnetic Catches Type
- **Body Material** : Plastic
- **Mounting Method** : Surfacing
- **Magnet Surface Treatment** : Nickel Plating
- **Installation Hole Dia. (d) (mm)** : 4
- **Width (mm)** : 11.2

- **Length (W) (mm)** : 45
- **Magnet Type Category** : Square Shape
- **Catch Plate** : Provided
- **Magnet Surface Treatment** : Nickel Plating
- **Max. Overall Height when Locked (mm)** : 15
- **Operating Environment** : Antirust / Dust Resistant
- **Magnet Material** : Neodymium
