

Ratchet Crimping Tool

Basic Specifications

■ **Material & Finish:** Chrome Steel, mirror-polished, corrosion-resistant coating

■ **Mechanical Properties:**

- **Hardness:** 58-60 HRC
- **Tensile Strength:** ≥900MPa
- **Surface Roughness:** ≤Ra0.8μm

■ **Handle Grip:**

BlueTPR rubber, ergonomic contour

■ **Assembly Details:**

Die set "U14" fixed with M4×10mm flat-head screws
Pivot rivet diameter: 8mm

■ **Quality & Inspection:** Visual inspection for surface defects

- **Dimensional tolerance:** ±0.2mm
- **Functional Test:** Crimp cycle verification

■ **Dimensional Summary:**

- **Overall length:** 375mm
- **Width:** 110mm
- **Jaw opening:** 14mm
