

#500SP1 SL1 Wear Plate, General-Purpose Type (DSWP)

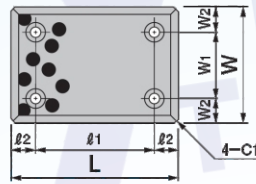

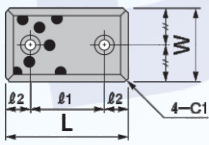

Please select the Parts No. based on the applicable width and length.

(Example) Width 75mm, length 200mm **DSWP - 75200**

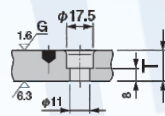

Parts No. Please give instructions.

The direction of movement is both width and length.

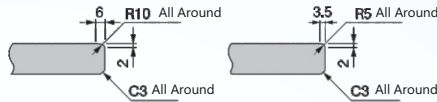

Cross-sectional shape

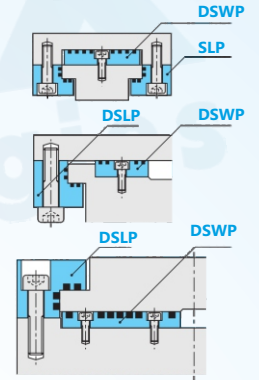

Chamfered shape

Basic Specifications

- Material - Metal system
- Thickness T (mm) - 20
- Maximum Allowable PV Value (N/mm²-m/s) - 1.65
- Metal system material - High tensile brass based / solid lubricant embedded
- Maximum Allowable Surface Pressure P (N/mm²) - 29
- Lubrication - Non-Lubricated
- Maximum Allowable Velocity V (m/s) - 0.5
